A CIRCULAR has been received at the Edmonton land office from the commissioner of Dominion lands, Winnipeg, stating that a party of about 500 Newfoundlanders will leave for Canada shortly. Some of these will come to the Northwest shortly and are anxious to secure employment. They are willing to sign an agreement to work for ten hours a day except in seed time and harvest when they will work twelve hours a day, the rate of wages to be $10.00 for persons between the ages of sixteen and twenty and $12.00 per month for persons between the ages of 20 and 25. One third of this amount has to be paid to the railway company and the remaining two thirds is to be paid to the person employed. The employer has to furnish railway transport to the nearest station and the agreement is to be for three years. Farmers in this district who desire to secure any of these persons on the terms mentioned are requested to communicate with the agent of Dominion lands. While the intent of this scheme is good and commendable the BULLETIN is afraid that it will scarcely be satisfactory. It would be better for these people who are in all probability altogether unused to farming to seek employment on farms in the Eastern provinces until they became used to farm work, before coming west.

EDMONTON BULLETIN, APRIL 3CTH, 1894.

OCEAN FREIGHT ON CATTLE.

The Dominion Live Stock Association deem it their duty to bring to the attention of the Canadian public a matter which has already done much to injure, and if allowed to continue threatens almost the total destruction of one of Canada's greatest industries, namely, the export of live cattle to Great Britain.

When it is remembered that since the establishment of this trade in the year 1875, it has brought back to Canada in cash over $75,000,000, the price of Canadian cattle sold in Great Britain, it becomes at once apparent how deeply this industry affects the interests of the whole country.

The importance, therefore, of the subject demands that the Association submit to the public the following facts:

The cattle trade reached its highest point in 1890, since which time it has declined.

The following were the exports of cattle and their value for the calendar years 1890-91-92-93:

Year.	Number of cattle exported to United Kingdom.	Their value.
1890	104,133	88,114,145
1891	99,967	7,381,284
1892	93,206	6,920,784
1893	89,572	5,799,638

Whilst the scheduling of Canadian cattle was one great cause for this decline, another and a preventible one is also operating in the same direction. If the trade were in a healthy condition it might be able to stand some drawbacks, but as if the scheduling were not misfortune enough, most if not all of the vessel owners have an understanding or combination, whereby they charge such freight as they choose.

Owing to quarantine regulations, Canadian cattle cannot be shipped through the United States to Europe. Thus the whole export trade is confined to one Canadian port, that of Montreal, the head of ocean steamship navigation.

To this one point must come all Canadian cattle intended for the English market, and there be shipped by one or other of the few lines of steamers sailing between that port and Great Britain.

Each line has its representative at Montreal, and what is easier than for these representatives to meet weekly or oftener, and combine as to cattle rates. They have their agents in England, cabling them constantly as to the price of cattle. If it goes up, they put up the freight rates, including rates for cattle already on board. If the price falls, rates do not come down in proportion. If there is a large quantity of cattle at Montreal, the vessel men combine to exact excessive rates.

If the markets improve and shippers want to ship in time to take advantage of such improvements, up go the rates. In fact, every state of the market or exigency of the cattle trade seems to be taken advantage of by the vessel men, to levy excessive rates. Buyers cannot ascertain before buying what the rates will be.

Thus with a well-grounded fear of being charged excessive rates, they have to buy in ignorance of what the vessel men will charge to carry the cattle to market.

The rate may be $7 a head, or it may be $17.50. This uncertainty alone makes cattle buying extremely hazardous, to the great prejudice, in some cases, of the farmer who sells, in others, of the buyer. Why should a legitimate industry be reduced to the level of gambling?

Buyers, who in buying having not reckoned on a sudden squeeze by the vessel men, have lost heavily, some even being ruined or driven out of the trade. In any event this very element of uncertianty renders it extremely difficult for the buyers to know what they may safely offer for cattle. As a rule, shippers do not know what the rates are to be, until the cattle have been purchased, brought to Montreal, and loaded, and the vessel is ready to sail.

In some cases the rate is fixed after the ship has sailed with the cattle on board. In securing space, the shippers at times have to agree to pay whatever are the going rates. This means whatever the agents of the vessel owners combine upon, when the shippers are in their power.

In these and other ways the whole export cattle trade of Canada is now being paralyzed by one of the hugest combinations in Canada.

The first principle of a contract is that both parties to it are free to assent to its terms. Here we have two interests, the cattle industry and the vessel industry, the latter dictating terms to which the former must submit. It is powerless to resist, for no other route is open, and the principal steamship lines coming to Montreal and engaged in the cattle trade being subsidized by the Government and enjoying other advantages are practically able to keep other vessels, except an occasional tramp steamer, off this route. Thus the conditions render this monopoly possible, and it exists, and is exercising its arbitrary powers most tyrannically.

With practically no competition in rates from Montreal, our cattle from Montreal at excessive rates are landed at Liverpool, on the same dock, by the side of American cattle carried at competitive rates from Boston, New York, &c.

Both bring the same price in the English market, but the American farmer was paid more for his cattle than was the Canadian farmer, because of the lower rates. Thus, shipping cattle are worth more in the Buffalo than in the Toronto market.

It now remains for the Canadian people to determine whether this condition of affairs shall be allowed to continue. Shall steamship lines, some of them largely subsidized by the Canadian Government, and all enjoying the advantages of Canadian ports, harbors and waterways, upon which millions of Canadian money have been expended, be allowed of their own arbitrary motion to exact just such rates as they choose from the products of this Canadian industry? or shall Parliament be called upon to intervene, as it has done in the case of railways and other powerful organizations, to protect the people from oppression?

In the unequal contest, the cattle dealers have struggled in vain against the powerful vessel combination but are unable to break it.

They now bring the matter before the public.

It directly concerns the Canadian farmer. If he is to be paid the fair value of his cattle it must be possible to market them at reasonable rates, in fact as cheaply as his American rival does.

But this question concerns more than the Canadian farmer. The farmer in old Canada especially is being obliged to change his mode of farming, by feeding his grain instead of selling it. If the market for his cattle is destroyed what becomes of his industry?

Thus, every Canadian is deeply concerned in guarding this most important branch of Canadian husbandry, and we ask, shall one great powerful interest stand at the gateway of Canadian commerce and arbitrarily levy tribute upon one of our most important industries, or shall Parliament be asked promptly to deal with this abuse of power and thus prevent further injury?

A bill seeking to remove these grievances has been introduced into Parliament by Mr. Mulock, so that the whole subject will likely be discussed on the floor of Parliament on the second reading of the bill. In introducing the bill, Mr. Mulock stated that he was not wedded to the methods suggested by his bill, if any better could be proposed, and he stands prepared to co-operate with the Government or any members of the House in order to accomplish the end aimed at, namely, the restoration of the cattle trade to a healthy basis, by the prevention of excessive and uncertain rates which are now strangling it. Therefore the question may be discussed on the basis of an existing evil, which, in the interest of the country, demands some effective remedy and that forthwith.

As the whole subject will be discussed in Parliament, and it is to be hoped a solution arrived at this session, it is of vital interest to Canada that the decision of Parliament shall be in the direction of relief from the oppression now existing. Therefore it is important that public attention be now directed towards the issue involved, in hope that public opinion may be evoked for the guidance of the people's representatives in Parliament.

Under these circumstances the Committee of the Dominion Live Stock Association, appointed to promote the necessary legislatson for the prevention of excessive, uncertain and arbitrary ocean freights, rates and methods, including scalping, respectfully request the Canadian public to co-operate with them in order to the attainment of so desirable an end.

Winnipeg Tribune: A letter just received Rev. J. Gough Brick, of the church of England mission at Smoky River, Athabasca, under date of March 1st, says that a very hard winter with cold and sickness had been experienced in the Peace River district. Nearly all through January the thoremometer was from 50 to 54 below zero, and with it came an epidemic of influenza. Every family within a radius of 100 miles was down with it, and up to March 1 there were 28 deaths, and more were expected to die.

ADDRESS OF WELCOME.

To the Right Reverend
Vital Justin Grandin
Bishop of Saint Albert.

May it please your Lordship,—

It is with feelings of the liveliest pleasure and gratitude that we the English speaking Catholics of this portion of your vast diocese are congregated round about you today, to bid you welcome to your throne long vacant in the midst of your people, as the long absence in Europe of your Lordship was caused by illness of so grave a character as to render your return to us uncertain at any time. So our joy though great at your home-coming has been heightened if possible at your restoration to health as well.

The varied evidences of gladness on every side, though mute, and the happy faces of even the least of your people, though silent, are yet all eloquent of the welome which is by word and act addressed to you this day.

We will not recount to your Lordship the many severe and almost disheartening trials, nor the many examples of self-denial, which are beyond all praise, in your devoted and zealous ministry of years gone bye among the benighted and isolated peoples who dwell amidst the gloom and desolation of the north. To how many men have you brought the light of faith over vast and lonely spaces during your long years of labor in the great lone land? Who can estimate the greatness of your work, and who can deny the heroism which prompts such noble and unselfish acts?

Thus on this the happy occasion of your return, to your Lordship, whose exalted station commands our respect, whose noble qualities of heart and mind have endeared you to us, and whose ready sympathy with poor, oppressed and care-encumbered men has made your name an honored household word, these tributes of affection go—they go from all races of your people to-day, whose united prayer is that your Lordship may long be spared to us in health and usefulness.

In conclusion we return thanks to Almighty God for restoring you to us, and we humbly ask your Lordship's blessing.

Signed { H. W. McKENNEY, Chairman,
DANIEL MALONEY,
JOHN R. DONOVAN.

PRAIRE FIRES AND GLASS BOTTLES.

DEAR SIR,—

It has struck me as quite possible that many of the prairie fires are caused through glass bottles, broken or otherwise, being left by travellers or others on the prairie or other places equally as dangerous and exposed to the sun's rays, which in a very short time causes fire to be set to the grass, or any other inflammable substance. The bottom of a broken bottle when exposed a certain way is almost sure to do it. If a public notice could be put up alongside some of the principal trails pointing out the danger of this practice I feel inclined to think that prairie fires would be less frequent. Only this week I picked up a bottle close to my place exposed to the full force of the sun, which donbtless prevented a fire.

Yours faithfully,
H. M. BING.

GENERAL NEWS.

Moose Jaw has more Chinamen than are wanted.

A case of diphtheria was found on a C.P.R. train coming in to Winnipeg recently.

It is proposed to extend the time for locating militia scrip of 1885 until Jan. 1st 1896.

The Prince Albert Times mentions the deaths of several children in that town and vicinity of diphtheria.

At the railway committee on April 19th the Northwest ordinance respecting the Edmonton tramway was referred to a subcommittee comprising Edgar, Masson and Boyle.

Regina Standard: A private letter from Ottawa brings us the information that the Northwest senators and members have waited upon the Government in reference to several matters of Territorial interest, and that as a result the school grant will be considerably increased; also the estimate for elections which are to be held next autumn. It is understood too that the Federal monies will be placed under the absolute control of the executive, and that the details of expenditure will not require to be accounted for to the auditor general as in the past, but to our own Legislative Assembly. This is another step towards the full provincial autonomy which we are gradually approaching. We understand that the power to re-arrange the constituencies; to increase the number of them, and to regulate the indemnity of members will also be conferred upon the Assembly. Provision will be made for the appointment of a law clerk.

THE auction sale of G. W. Hislop's household effects on Saturday was well attended. The sale was not concluded and wil be concluded to-morrow.

E. E. SHEPPARD, of Toronto Saturday Night, visited Edmonton on Thursday's train on his way to the coast. He said that Edmonton reminded him very much of an Ontario town both by reason of the surrounding scenery and the homelike and permanent appearance of the place.

ON Friday night about half past ten o'clock, as Jas. Graham, of Ft. Saskatchewan, a teamster, and the ferry man Jos. Lamoureux, were crossing the river on the ferry scow with two teams loaded respectively with brick and lumber and having five loose horses, the scow sank in about seven feet of water near the middle of the river. When the ferry man saw that the scow was sinking he unhitched the horses fram the wagons. The boat went down head first pitching the team horses into the water and they made for shore, reaching it not very much the worse. As the scow settled the loose boards on the deck rose up amongst the horses' legs increasing very greatly the difficulty and danger of the situation. One of the horses was drowned, but the rest of the horses and the men reached shore safely.

ODDFELLOWS' ANNIVERSARY.

The 75th anniversary of the foundiug of oddfellowship was celebrated by Friendship Lodge No. 7 of Edmonton and their friends by an entertainment in Robertson hall on Thursday evening last. The hall was appropriately decorated with mottos and evergreens tastefully arranged. The mottos were, "Friendship, Love and Truth," "Relieve the Distressed," "Heal the Sick," "Bury the Dead," "Educate the Orphan," the work of H. C. Holder and F. Keil. The stage was arched with evergreens. C. W. Sutter, was chairman, and A. Brown, Noble Grand of Friendship lodge and William J. Wilson, Deputy District Grand Master for Idaho, occupied seats on the platform in full regalia. Shortly before the hour of opening the members of the lodge met in their hall in the Taylor block and marched in regalia to Robertson hall where the entertainment was being given.

The following is the programme:

Waltz, "Auf Wiedershen," orchestra. The chairman gave a short address, in the course of which he said that the entertainment was in celebration of the 75th birthday of Oddfellowship in America. Five Oddfellows then welded together the chain of friendship which now encircles nearly every portion of the United States and Canada. Last fall the order reached Edmonton and Friendship lodge No. 7 was organized with eight charter members. This number has since been increased to 30. The present was the first occasion upon which the Oddfellows had appeared before the Edmonton public as a society. What the order had done and was still doing would be explained later on in the meeting by W. J. Wilson, district deputy grand master of Idaho. Song, "The Brave Sentinel," F. D. Fortin. Song, "Nellie Bawn," Miss Eva Foster. Recitation, "The district School," Miss Flossie Sutter. Waltz, "Alone," orchestra. Recitation, "Life's Voyage," Miss Edith Bellamy. Piano solo, "The Storm" (Weber), Alex. McCauley. Song, "Still he wouldn't go home," J. O. Vanbuskirk; encore. Duet, "Whispering Hope," Mrs. Hockley and Mrs. Foster. Cornet duet, "Sweet Spirit Hear My Prayer," Messrs. O. May and W. Clark; encore, "The Whirlwind." Song, "Wot Cher," F. H. Braine; encore, "I was in it." Address on Oddfellowship by W. J. Wilson, district deputy grand master of Idaho, in which the objects of the order, its rise and progress, the work which it had accomplished and was still accomplishing as a helpful society was eloquently sketched. March, "Hoch Habsburg," orchestra. An intermission of a short time followed, and then an excellent lunch was served. During the luncheon the orchestra played "Violette" mazurka, "Spur of the moment" gallop, "Dancing on the Pier" schottische and repeated "Auf Wiedershen" waltz. By special request Miss Flossie Sutter recited, "Aunt Prue." Dancing followed, in which about forty couples took part and a very pleasant time was spent until an early hour on Friday morning. Violin music was furnished by Mr. Ring. The accompaniments to the numbers on the programme were played by F. H. Andrews. The supper was furnished by J. R. Dickson of the Alberta dining room. The oddfellows are to be congratulated on the success of this their first entertainment

J. A. Davidson, leader of the opposition in the Manitoba legislature, has been unseated for corrupt practices by agents.

Winnipeg Tribune: The question that stares our people in the face is that of paving, in order that we may get over the immense drawback occasioned by the mud. So difficult is locomotion at the present time on all the streets, except Main and others which are paved, that traffic is next to impossible, and some of the bakers and milk men are unable to visit their customers. The mud is something frightful, and when the sun and winds do dry the streets up they will be so horribly cut up as to render them difficult to travel on.
